Catalina Capri 22

Known for its sweet sailing performance in nearly all conditions, the Catalina Capri 22 has been winning sailors since it's introduction. The Capri 22 is more comfortable, safer at sea and easier to maintain than any boat in it's class.

The striking deck profile is flared across the stern and has wider cockpit curves for crew comfort during and after sailing. Under the full reclining length seats is a large storage locker and separate battery locker

Maintaining one-design hull and rigging still allows for increases in efficiency and reduction in effort. Halyards raise the sails with less effort, thanks to the elimination of deck turning blocks.

A 12 volt electrical system with control panel offers all the conveniences of information and entertainment at the touch of a switch

A complete racing package is available, including: symmetrical spinnaker, sheets, pole and backstay tension adjuster

The enclosable head and available galley module make the Capri 22 suitable for extended daysailing or weekendng.

photos may show optional equipment.
